Philadelphia, PA 19104-6309

August 18, 2015

Grigory Yaroslavtsev  
Philadelphia, PA

Dear Grigory:

I am pleased to appoint you as a part-time lecturer in the Computer and Information Science (CIS) Department for the fall 2015 semester. At Penn, you will teach CIS 700 Special Topics: Algorithms for Big Data under my supervision. For this appointment you will be paid \$3,000.

Under University and school guidelines it is generally expected that work for these courses would entail approximately 30 hours per week of faculty time related to delivery of instruction, preparation, meeting time with students, supervision of TAs, etc. Since your appointment is only for one semester, as such it is not benefits eligible under federal law and University policy.

Should your responsibilities substantially change insofar as additional teaching or other assignments are added, it is expected that the terms of this offer letter would be altered. These changes would be memorialized in another letter signed by you and Computer and Information Science Department.

If you are now or do in the future perform compensated work for another school or unit that is not currently addressed in this letter, please let us know as assignments in other Penn schools or units will affect your benefits eligibility, and will need to be coordinated accordingly.

I wish you great success in your teaching in CIS.

Sincerely,

Sampath K. Kannan  
Henry Salvatori Professor  
Chair, Computer and Information Science Department

I accept this appointment to teach CIS 700 Special Topics in fall 2015.
